**Manufacturing industry
in focus - We give the
industry a voice**

Video production for digital impact and maximum reach.

In digital communication, video is the most effective means of making complex content understandable. Our video productions help industrial companies to communicate products, processes and innovations that require explanation clearly, precisely and effectively - on all relevant channels.

Whether image film, product video or application explanation: we implement technical content in such a way that it is understood, remembered and shared.

From the initial concept idea to the final teaser, we deliver everything from a single source - structured, on time and with technical understanding.

Our range of services:

01

ESPRESSO TALK

- Concise interview with a thematic focus.

02

EXPO INSIGHTS

- Innovations, trends and highlights-straight from the trade fair.

03

VIDEO PODCAST

- Where industry knowledge meets personality.

04

IMAGE VIDEO

- Your company in the best light - with a movie that inspires.

05

EVENT VIDEO

- We accompany your event and capture highlights.

06

BEST PRACTICE VIDEO

- Show your customers how your solution works in practice.

07

RECRUITING VIDEO

- Recruit qualified specialists for your company.

We shape the video material into a highquality result exactly as specified. The concept of quality is practiced in every area of production. Whether image concept, camera work, sound or editing - everything is implemented in line with the corporate identity on request. Of course, we can also integrate existing video material into the new production on request.

On the following pages you will find the price scale for our individual video concepts. We are always available for a detailed individual offer.
